

Mining Equipment – Rock Drill

ROCK DRILL – VK 16W

Features

- Raise driving and bolting
- High-performance design.
- Convenient pusher-leg control.
- Efficient long-stroke mechanism

The **VK 16W Rock Drill** technically equivalent to the BBC 16W Rock Drill, is a pusher leg mounted robust and reliable pneumatic rock drill specifically designed for **hole range 27-41 mm** underground drilling applications, particularly in narrow drifts, tunnels, and confined working areas. Its compact and practical design makes it well suited for operations where space is limited.

Applications

- Underground rock drilling
- Tunnel and drift construction
- Mining production drilling

Technical Data

Specifications	Metric	Imperial
Weight	28.5 Kg	63 lb
Length without Leg	705 mm	28"
Air Consumption	69 l/s	146 cfm
Working Air Pressure	6 Bar	87 psi
Piston Diameter	70 mm	2.756"
Piston Stroke	55 mm	2.165"
Impact Rate	2340 bpm	2340 bpm
Air Inlet	25 mm	1"
Water Inlet	13 mm	½"
Shank Size (Hex)	22 X 108 mm	7/8 X 4 ¼"
