

The **VK 51 Pusher Leg** technically equivalent to the BMT 51 Pusher Leg, is a durable and efficient support system designed for the BBC 16W & BBC 34W jackleg drill. Built from high-strength aluminum alloys originally developed for the aerospace industry, it offers both reliability and longevity. Its ergonomically positioned feed controls provide improved operator comfort.

## Features

- Double-acting: push out and pull back in
- Easy to connect
- Large piston diameter for high feed force

## Application

- Production drilling
- Mining and Construction
- Dimension stone industry

## Technical Data

Model – VK 51		
<b>Weight</b>	15 kg	33 lb
<b>Piston Diameter</b>	60 mm	2.36"
<b>Feeding Length</b>	1300 mm	51.18"
<b>Length Extracted</b>	2985 mm	117.52"
<b>Length Retracted</b>	1658 mm	65.27"
<b>Suitable Rock Drill</b>	BBC 16W & BBC 34W Jackleg Drill
