

## PICK HAMMER – VK 33

The **VK 33 Pick Hammer** technically equivalent to LaCruz ML 33 is an ultra-lightweight pneumatic tool designed for horizontal and angular drilling in confined or hard-to-reach spaces. Its lightweight design makes operation easier and ideal for extended use over long hours. It features an innovative light D-type aluminum handle that enhances control and maneuverability.

### Features

- Ultra-lightweight design
- Suitable for long-hour operation
- D-type Aluminum handle
- Compact and efficient pneumatic mechanism

### Application

- Ideal for horizontal and angular drilling
- Mining and demolition
- Suitable for Coal mines

### Technical Data

Model – VK 33 Pick Hammer		
Specifications	Metric	Imperial
Weight	5.5 kg	12 lb
Length	430 mm	16.9"
Blow Per Minute	2000	2000
Air Consumption	18 l/s	38 cfm
Retainer Type	SCREW CAP	SCREW CAP
Shank Size	21 x 12 mm	0.82" x 0.47"
