## Paving Breaker – VK 117 ( 80 lb )

The **VK 117 (80 lb)** paving breaker, technically equivalent to the CP 117, meets the needs of customers seeking a conventional breaker style. Featuring low air consumption but delivering powerful blows, these traditional breakers with low blow frequencies are primarily utilized in demanding breaker applications. These breakers are ideal for demanding applications like medium to heavy demolition, breaking asphalt and rock, digging hard clay, and trenching.

The standard tools are available either in a basic version or in a version with a muffler. The mufflers can also be bought separately for retro-fitting. Breakers are available with different shanks to cater to various markets and customer needs.
